

WATER YOU CAN COUNT ON FROM A COMPANY YOU CAN TRUST

Premium Quality Water For Office Coffee

Treat your employees to the best tasting coffee! Begin with quality beans. Then consider the water, which comprises 99% of your beverage. Remember, you can't control the quality of your gourmet coffee without controlling the quality of your water.

Even the finest blends of coffee require premium quality water to achieve a "gourmet" brew. Everpure® water filters reduce dirt and bad tastes and odors from water before they destroy the natural good taste and aroma of coffee.

EV9618-01

OCS Filter Cartridge

Delivers premium quality water for office coffee applications

Provides sparkling clear, fresh, premium quality ingredient water for great tasting beverages

Everpure's unique filter blend using activated carbon reduces chlorine taste and odor and other flavors that can greatly affect the quality of your beverages

Precoat submicron technology reduces dirt and particles as small as 1/2 micron in size

Possible health contaminants are reduced. Asbestos fibers and other cysts, such as Cryptosporidium and Giardia, are mechanically filtered out of incoming water

Saves energy by reducing scale build-up. Proportioned scale inhibitor feed dramatically prevents limescale from forming in brewing equipment

Proper feeding of scale inhibitor assured. The filter is designed to always feed the correct amount of scale inhibitor into each volume of water
